## Design

The contemporary styling of the ACCENT SERIES places maximum attention on merchandising. A softer, rounder design featuring as standard a Kings Grey exterior color and Slate recessed base. All ACCENT SERIES merchandisers have the same contour and line up together to create extended product displays.

## Merchandising

The SHM is a traffic stopper... a product mover... with a display area that creates a dramatic, unlimited view of the product display. Large volume three-step display insert brings the product to the customer and stimulates impulse sales throughout your store.

## Construction

Compact size offering maximum display area in minimum floor space. Large front window and sides for increased product visibility. Easy to clean interior. CFC-Free foam insulation. Factory installed power cord and on/off power switch.

## Refrigeration

Air curtain design with efficient honeycomb air discharge. Automatic defrost. Electric condensate removal – no drain required. Slide-out condensing unit for easy serviceability. Front air intake/discharge allows positioning cases back-to-back or against a wall. Rear air intake/discharge is available on all models except the SHM-3 in order to build them into a self-service line. Adjustable temperature control.

## Warranty

Five years against insulation failure or leaks in insulated area. Five years against failure of compressor. One year against defective materials or faulty workmanship, including labor.
